LÍFLEGI HLEMMUR LIVELY HLEMMUR

LÍFLEGI HLEMMUR LIVELY HLEMMUR

Líflegi Hlemmur leitar leiða til að byggja upp nýja torgið og renna stoðum undir þá styrkleika sem torgið býr nú þegar yfir. Mathöllin slær tóninn og veitir innblástur. Við leggjum til yfirbyggð athafnasvæði í bland við hönnuð svæði undir berum himni, svo úrval samkomustaða verði í boði innan dyra sem utan.

Líflegi Hlemmur innleiðir kraft og leikgleði ásamt því að undirstrika sérstöðu þessa merka almenningssvæðis. Líflegi Hlemmur býður Reykvíkum að koma saman til að njóta samveru og til að njóta lífsins til hins ítrasta!

Lively Hlemmur looks for ways in which the new square can build on and strengthen the qualities of the existing public space. Taking inspiration from the Food Hall, we propose a collection of sheltered, programmed rooms in combination with open, landscaped spaces that form a complementary indoor and outdoor public meeting point.

Lively Hlemmur introduces energy, playfulness and identity to an important public space, and invites Reykjavickers to come together, enjoy each others company and maximise public life in all conditions!

BAKGRUNNUR

BACKGROUND

HEFÐBUNDNA TORGID THE TRADITIONAL SQUARE

Hefðbundið torg er skilgreint út frá tengslum þess við mörk og úrlausnir.

A traditional square is defined by its relationship to its edges and program.

STAÐAN Á HLEMMI HLEMMUR'S CONDITION

Nú skortir Hlemmtorg formgerð, sérstöðu og ástæður til að nýta svæðið.

Today, Hlemmur square lacks structure, identity and reasons to use the space.

LÍFLEGI HLEMMUR LIVELY HLEMMUR

Ný úrræði geta glætt torgið fjölskrúðugu mannlífi og aukið orkuna með því að nýta rýmið betur og færa út mörkin með spennandi hætti.

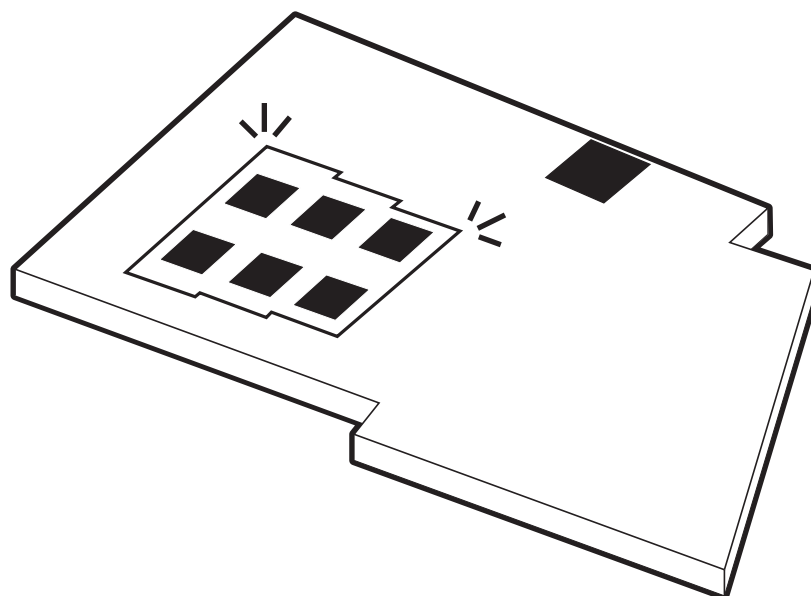

New program can bring energy and life to the square, while creating new and exciting edges to activate the in between spaces.

SAGAN ***STORY***

MATHÖLL **THE FOOD HALL**

Mathöllin er helsti styrkleiki Hlemms. Litríkur og líflegur staður ásamt því að vera mikilvægt kennileiti borgarinnar. Hvað getum við lært af þessari farsælu uppbyggingu í þéttbýlinu?

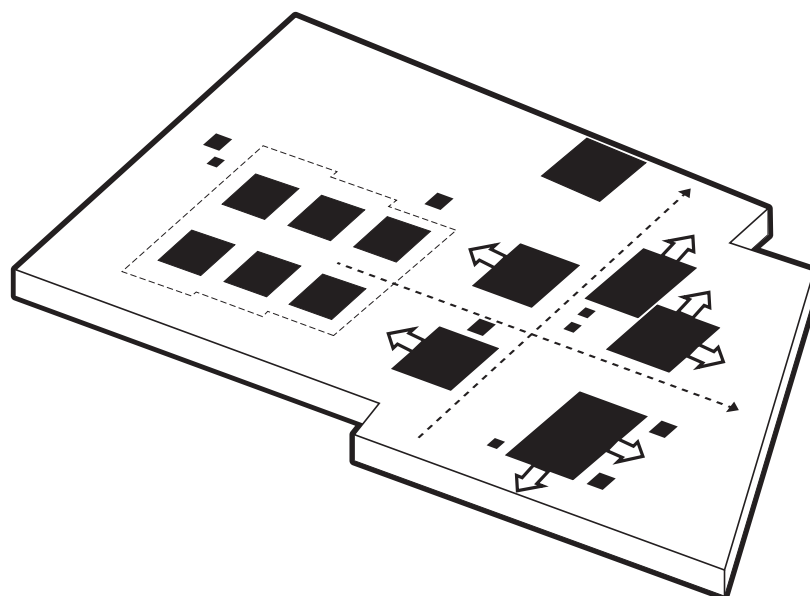

Hlemmur's biggest asset is the Food Hall. A vibrant local and citywide landmark. What can we learn from this successful urban generator?

TVEIR ERU BETRI EN EINN
TWO IS BETTER THAN ONE

Fyrirhugaðar gatnaframkvæmdir munu innan tíðar stækka Hlemmtorg. Við byrjum á að stækka Mathöllina um helming og nýta með því mótí rýmið sem verður til við gatnaframkvæmdirnar.

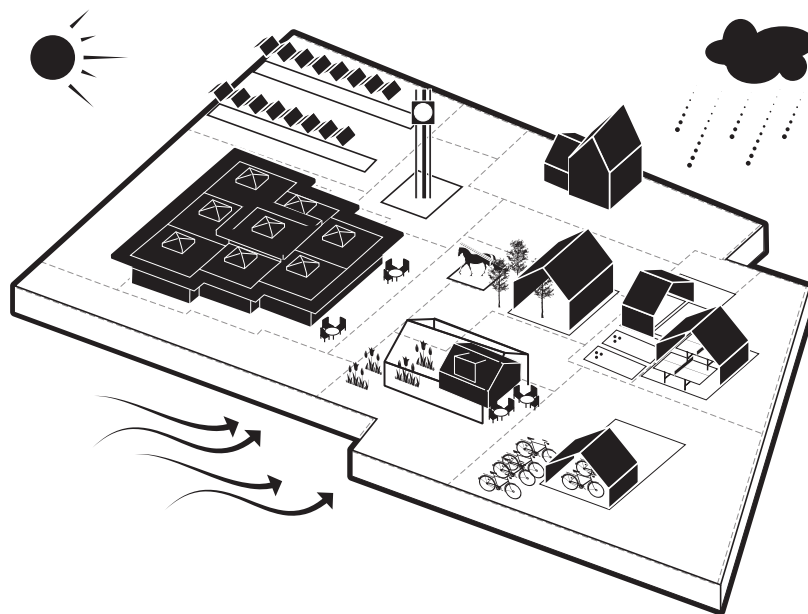

Due to the upcoming roadway reconfiguration, Hlemmur square will soon become bigger. We start by doubling the Food Hall's program surface to take use of the newly acquired space.

AÐLÖGUN TIL SAMRÆMIS ADAPTING TO CONTEXT

Þar sem umgjörð byggingarinnar er ekki lengur takmarkandi, gefst okkur aukið frelsi til að útfæra hugmyndir okkar um torgið. Áætlun okkar er vandlega ígrunduð og tekur mið af útsýni, hugsanlegum breytingum á umferð í framtíðinni sem og núverandi mörkum.

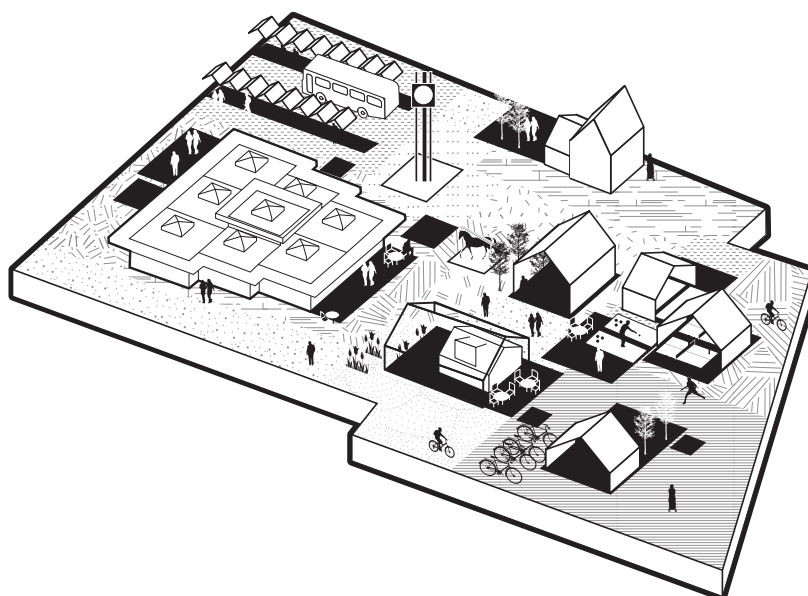

Without the limitations of a building envelope, our square program can be placed freely. We position the new program carefully to consider view lines, future traffic changes, and with respect for the existing edges.

YFIRBYGGÐ RÝMI SHELTERED SPACES

Til að nýta rýmið sem best og til að auka ánægju og vellíðan gesta, gerir nýja áætlunin ráð fyrir yfirbyggðum rýmum. Hitastigið á torginu er því notalegt, hvernig sem viðrar. Sá tími ársins lengist, sem hægt er að nýta á almenningssvæðum!

*To maximise the enjoyment and usability of the space, the new program is wrapped in protective skins that create pleasant microclimates in unpleasant weather.
Public life season is extended!*

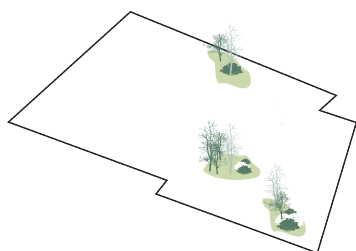

LÍFLEGI HLEMMUR LIVELY HLEMMUR

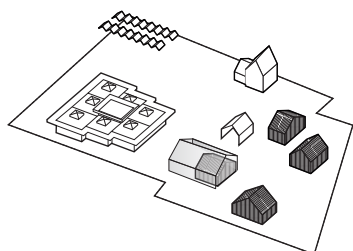

Afraksturinn er torg sem styrkir núverandi stoðir og starfsemi Hlemms, bætir við skemmtilegri starfsemi og laðar fólk að á öllum tímum og í hvaða veðri sem er!

The result is a square that strengthens the existing qualities of Hlemmur, introduces fun, shared activities and attracts people in all seasons and weather!

SAGAN -2M
HISTORY -2M

Áin sem rennur neðan jarðar og fæstir vita af, verður færð upp á yfirborðið í formi gufu eða misturs.

The forgotten river - currently flowing underground - is brought back to the surface as steam or mist.

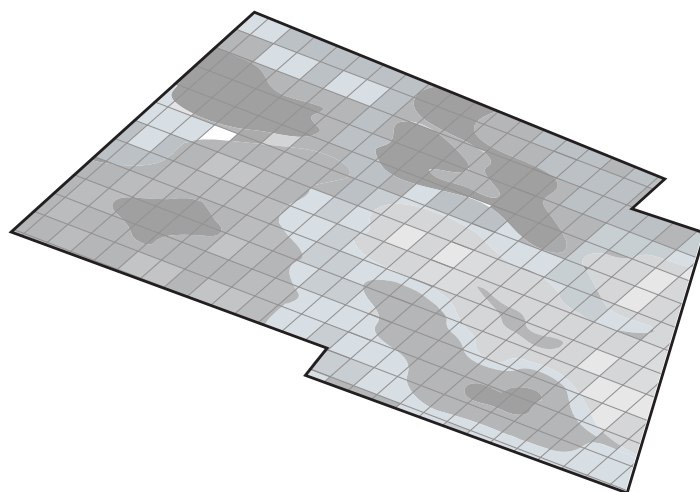

TÍMI OG LOFTSLAG -0.1M
TIME AND CLIMATE -0.1M

Hitaleiðslur undir gangstéttum verma yfirborðið og mynda
 mynstur þegar snjóar eða rignir.

*Below the pavement a floor heating network warms up the
 surface and creates patterns during snowy or rainy days.*

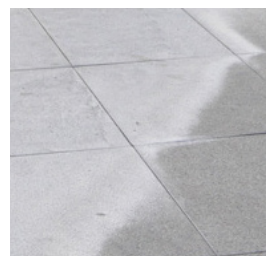

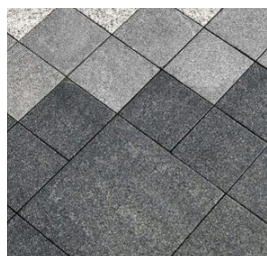

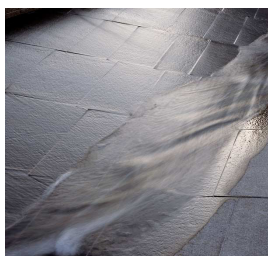

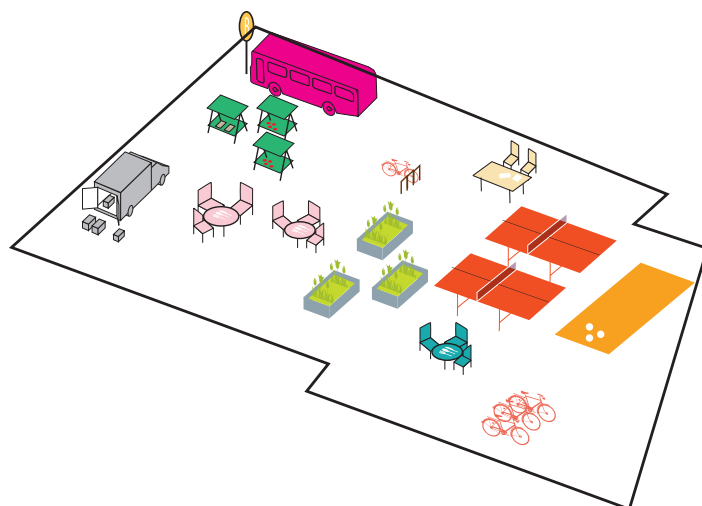

GANGSTÉTTIR +0M
PAVEMENT +0M

Saman mynda hitaleiðslur og 40x40 cm gangstéttarhellur í þremur gráum litatónum, kraftmikið mynstur, hvort sem snjór hylur jörð eða veður er þurrt eða vott.

Together with the floor heating, the 40x40cm pavement tiles in three grey tones respond to changing weather by forming dynamic patterns in wet, snowy or dry conditions.

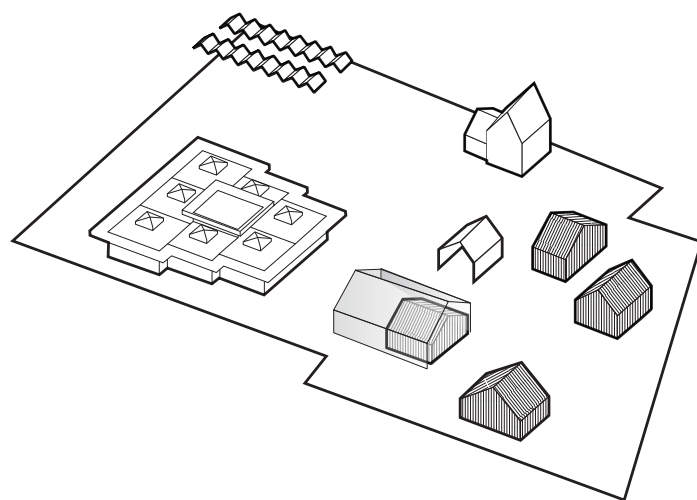

STARFSEMI +0-1M ACTIVITIES +0-1M

Starfsemi eins og borðtennis, boules, reiðhjólaviðgerðir og matreiðsla gefa tilefni til að hittast og koma saman á svæðinu.

Activities such as table tennis, boules, bike repairing and food production give reasons to meet and gather in the space.

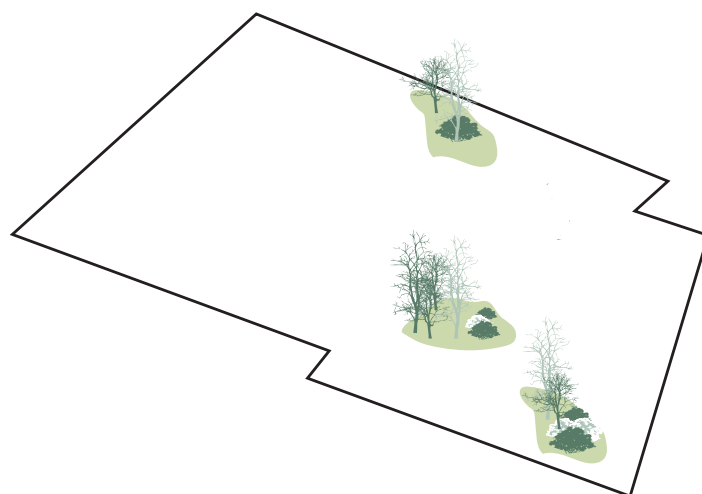

YFIRBYGGING +0-5M
SKIN +0-5M

Yfirbyggingin sem er úr riffluðu stáli, gleri og speglum, veitir skjól án þess að hindra útsýni eða takmarka samskipti.

The protective skin made of corrugated steel, glass, and mirrors, shelter while allowing for visual connection and communication.

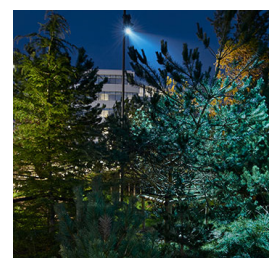

LANDSLAGSMYND +0-10M
LANDSCAPE +0-10M

Staðbundinn gróður svo sem reynir og birki mýkir ásýnd torgsins og rammur inn opin vor- og sumarsvæðin.

Local vegetation as sorbus and birch softens the square and gives form to the unprotected summer and spring spaces.
